

**City of Wichita  
District IV Advisory Board  
May 2, 2022**

**TO:** District Advisory Board Members

**SUBJECT:** Multimodal Facility

**INITIATED BY:** Department of Public Works & Utilities/Wichita Transit

**AGENDA:** New Business

---

**Recommendations:** Approve the 30% Design Concept.

**Background:** In November 2019, the City of Wichita received a Federal Transit Authority (FTA) Grant from the U.S. Department of Transportation to improve transportation service through a multimodal center. On December 15, 2020, the City Council approved \$19,232,816 for design, infrastructure and utility work, construction of the center, and project management. On May 11, 2021, the City Council approved a contract with TranSystems for the design of the multimodal center.

**Analysis:** The TranSystems design team has worked with Wichita Transit, City staff, and FTA to develop 30% plans for the Multimodal Facility. The project includes 12 bus bays, offices for Transit ticketing and operations staff, public and staff restrooms, approximately 400 space parking structure, space for bicycle/scooters rentals, etc. The facility will be located on the block bounded by Sycamore, Oak, Texas, and Burton.

**Financial Considerations:** The FTA Bus and Bus Facility Competitive Federal Funds total \$14,232,816. Combined with the budgeted \$5,000,000 in General Obligation Bond funding for the Multimodal Facility, at total budget of \$19,232,816 is available for design, infrastructure and utility work, construction of the facility and oversight of the project.

**Legal Considerations:** None

**Recommendations/Actions:** It is recommended that the District Advisory Board approve the 30% concept design.
